

# (Sample Question Bank)

Created: 2026-03-08 Last Updated: 2026-03-08 Total Questions: 52 Coverage: 7 departments

## Summary Statistics

| Department     | Count | Simple | Medium | Complex |
|----------------|-------|--------|--------|---------|
| (Procurement)  | 10    | 2      | 4      | 4       |
| (Sales)        | 9     | 2      | 3      | 4       |
| (Production)   | 8     | 2      | 3      | 3       |
| (R&D)          | 7     | 1      | 3      | 3       |
| (Supply Chain) | 6     | 1      | 3      | 2       |
| (Finance)      | 6     | 2      | 2      | 2       |
| (Management)   | 6     | 0      | 2      | 4       |

| Answer Type    | Count |
|----------------|-------|
| lookup         | 12    |
| analysis       | 22    |
| recommendation | 18    |

---

## (Procurement)

### Q-001:

- **question\_zh:** 1
- **question\_en:** A purchase request for 1 caliper. Can I check how many calipers this person has bought, how many the department has, and whether this purchase is reasonable?
- **department:**
- **scenario:**
- **data\_sources:** ERP( ), ERP( ), ERP( )
- **complexity:** medium
- **answer\_type:** analysis
- **kb\_coverage:** none
- **priority:** high
- **source:** 2/22 screenshot ( )

### Q-002:

- **question\_zh:** 10  
10
- **question\_en:** Procurement wants to buy 10 tons of copper oxide. Can I pull current inventory vs order demand, and analyze against futures trends whether 10 tons is too much or too little?

- **department:**
- **scenario:**
- **data\_sources:** ERP(     ), ERP(     ),     (     ),
- **complexity:** complex
- **answer\_type:** recommendation
- **kb\_coverage:** none
- **priority:** high
- **source:** 2/22 screenshot (     )

#### Q-003:

- **question\_zh:**
- **question\_en:** I need to negotiate with a supplier. Can I pull our meeting records, emails, cooperation history, performance ratings, plus their public reputation and industry position to prepare?
- **department:**     /
- **scenario:**
- **data\_sources:**     ,     , CRM(     ),     (     /     ),
- **complexity:** complex
- **answer\_type:** analysis
- **kb\_coverage:** partial
- **priority:** high
- **source:** 2/22 screenshot (     )

#### Q-005:

- **question\_zh:** PET
- **question\_en:** Which suppliers currently supply PET film? What are their prices, lead times, and quality scores? Are there potential new suppliers to consider?
- **department:**
- **scenario:**
- **data\_sources:** ERP(     ), CRM(     ),     (     )
- **complexity:** medium
- **answer\_type:** analysis
- **kb\_coverage:** partial
- **priority:** high
- **source:** brainstorm

#### Q-006:

- **question\_zh:**     12
- **question\_en:** What's the price trend for copper foil base material over the past 12 months? Compared to copper futures, are we buying high or low?
- **department:**
- **scenario:**
- **data\_sources:** ERP(     ),     (     ),
- **complexity:** complex
- **answer\_type:** analysis
- **kb\_coverage:** none
- **priority:** high

- **source:** brainstorm

#### Q-007:

- **question\_zh:** 3
- **question\_en:** Which supplier contracts expire in the next 3 months? What are the contract values and renewal terms?
- **department:**
- **scenario:**
- **data\_sources:** ERP( ), CRM( )
- **complexity:** simple
- **answer\_type:** lookup
- **kb\_coverage:** none
- **priority:** medium
- **source:** brainstorm

#### Q-008:

- **question\_zh:**
- **question\_en:** Aluminum foil base material cost is high. Are there alternative materials to reduce cost? How would they affect product performance?
- **department:** /
- **scenario:**
- **data\_sources:** ( ), , ( )
- **complexity:** complex
- **answer\_type:** recommendation
- **kb\_coverage:** partial
- **priority:** medium
- **source:** brainstorm

#### Q-009:

- **question\_zh:**
- **question\_en:** What was each major supplier's on-time delivery rate last quarter? Which ones frequently delayed?
- **department:**
- **scenario:**
- **data\_sources:** ERP( ), ERP( )
- **complexity:** medium
- **answer\_type:** analysis
- **kb\_coverage:** none
- **priority:** medium
- **source:** brainstorm

#### Q-010:

- **question\_zh:**
- **question\_en:** How is procurement's budget execution this month? Which categories are over budget? Which have remaining balance?
- **department:** /
- **scenario:**
- **data\_sources:** ERP( ), ERP( )
- **complexity:** simple

- **answer\_type:** lookup
- **kb\_coverage:** none
- **priority:** medium
- **source:** brainstorm

---

## (Sales)

### Q-004:

- **question\_zh:** 5 10 MA  
.....
- **question\_en:** Sales wants to sell 100k sqm of MA at 5 yuan. Can I quickly analyze whether this price covers our costs and whether this customer is worth working with?
- **department:**
- **scenario:**
- **data\_sources:** ERP( ), ERP( ), CRM( ),
- **complexity:** complex
- **answer\_type:** recommendation
- **kb\_coverage:** none
- **priority:** high
- **source:** 2/22 screenshot ( )

### Q-011:

- **question\_zh:** U&S ENERGY 6
- **question\_en:** What's the order trend from U&S ENERGY over the past 6 months? Growing or declining? What's the forecast for next quarter?
- **department:**
- **scenario:**
- **data\_sources:** ERP( ), CRM( ),
- **complexity:** medium
- **answer\_type:** analysis
- **kb\_coverage:** partial
- **priority:** high
- **source:** brainstorm

### Q-012:

- **question\_zh:** 6μm
- **question\_en:** What's our latest quote for 6μm composite copper foil? What's the industry price range? Are we competitive?
- **department:**
- **scenario:**
- **data\_sources:** ERP( ), ( ), ( )
- **complexity:** medium
- **answer\_type:** recommendation
- **kb\_coverage:** partial
- **priority:** high
- **source:** brainstorm

**Q-013:**

- **question\_zh:**
- **question\_en:** Which customers have receivables past their credit terms? What are the amounts? Which ones need priority collection?
- **department:**     /
- **scenario:**
- **data\_sources:** ERP(            ), CRM(            )
- **complexity:** simple
- **answer\_type:** lookup
- **kb\_coverage:** none
- **priority:** high
- **source:** brainstorm

**Q-014:**

- **question\_zh:**
- **question\_en:** Which domestic battery makers haven't adopted composite current collectors yet? What are their capacities and tech routes? Which are most likely prospects?
- **department:**     /
- **scenario:**
- **data\_sources:**       (            ),            (            ),            (            )
- **complexity:** complex
- **answer\_type:** recommendation
- **kb\_coverage:** partial
- **priority:** high
- **source:** brainstorm

**Q-015:**

- **question\_zh:**       3
- **question\_en:** What customer complaints have we received in the past 3 months? Summarize by product and issue type. What's the most common complaint?
- **department:**
- **scenario:**
- **data\_sources:** CRM(            ), ERP(            )
- **complexity:** medium
- **answer\_type:** analysis
- **kb\_coverage:** none
- **priority:** medium
- **source:** brainstorm

**Q-016:**

- **question\_zh:**
- **question\_en:** How are individual sales reps tracking against targets this month? Who's performing best? Which product lines are selling most?
- **department:**
- **scenario:**
- **data\_sources:** ERP(            ), CRM(            )
- **complexity:** simple
- **answer\_type:** lookup
- **kb\_coverage:** none

- **priority:** medium
- **source:** brainstorm

#### Q-017:

- **question\_zh:**
  - **question\_en:** Among our easy-open lid customers, which ones also use battery materials? Are there cross-selling opportunities for composite current collectors?
  - **department:**
  - **scenario:**
  - **data\_sources:** CRM(            ), ERP(            ),            (            )
  - **complexity:** complex
  - **answer\_type:** recommendation
  - **kb\_coverage:** partial
  - **priority:** medium
  - **source:** brainstorm
- 

### (Production)

#### Q-018:

- **question\_zh:** U&S ENERGY      3
- **question\_en:** What stage is U&S ENERGY's 3rd batch order at? When is expected completion? Any delay risk?
- **department:**
- **scenario:**
- **data\_sources:** ERP(            ), ERP(            )
- **complexity:** simple
- **answer\_type:** lookup
- **kb\_coverage:** none
- **priority:** high
- **source:** brainstorm

#### Q-019:

- **question\_zh:**
- **question\_en:** What's the yield rate for each composite copper foil production line this month? Up or down vs last month? What's causing low yield on underperforming lines?
- **department:**
- **scenario:**
- **data\_sources:** ERP(            ), ERP(            ),            (            )
- **complexity:** medium
- **answer\_type:** analysis
- **kb\_coverage:** partial
- **priority:** high
- **source:** brainstorm

#### Q-020:

- **question\_zh:**
- **question\_en:** How much downtime did each production line have last month? What were the causes? Which equipment had the most failures?

- **department:**
- **scenario:**
- **data\_sources:** ERP(                    ), ERP(                    )
- **complexity:** medium
- **answer\_type:** analysis
- **kb\_coverage:** none
- **priority:** high
- **source:** brainstorm

#### Q-021:

- **question\_zh:**            5                    5
- **question\_en:** What's the current capacity utilization for our 5 copper foil lines and 5 aluminum foil lines? Based on current orders, how many lines should be running?
- **department:**
- **scenario:**
- **data\_sources:** ERP(                    ), ERP(                    ),                    (                    )
- **complexity:** medium
- **answer\_type:** analysis
- **kb\_coverage:** partial
- **priority:** high
- **source:** brainstorm

#### Q-022:

- **question\_zh:**            3                    PET                    15%
- **question\_en:** Line 3's PET film consumption is 15% above standard this week. What might be causing this? Has this happened before?
- **department:**
- **scenario:**
- **data\_sources:** ERP(                    ), ERP(                    ),
- **complexity:** complex
- **answer\_type:** analysis
- **kb\_coverage:** none
- **priority:** medium
- **source:** brainstorm

#### Q-023:

- **question\_zh:**                    3
- **question\_en:** Based on the last 3 months of production data, at what temperature and current density ranges does copper deposition yield peak?
- **department:**            /
- **scenario:**
- **data\_sources:** ERP(                    ), ERP(                    ),                    (                    )
- **complexity:** complex
- **answer\_type:** recommendation
- **kb\_coverage:** partial
- **priority:** medium
- **source:** brainstorm

**Q-024:**

- **question\_zh:** 3 2
- **question\_en:** Next week 3 customer orders need production but only 2 lines are available. How should we prioritize? What are the delivery dates and margins?
- **department:**
- **scenario:**
- **data\_sources:** ERP( ), ERP( ), ERP( )
- **complexity:** complex
- **answer\_type:** recommendation
- **kb\_coverage:** none
- **priority:** high
- **source:** brainstorm

**Q-025:**

- **question\_zh:**
- **question\_en:** What are the output, yield, and scrap rates for day shift vs night shift this month? Which team performed better?
- **department:**
- **scenario:**
- **data\_sources:** ERP( ), ERP( )
- **complexity:** simple
- **answer\_type:** analysis
- **kb\_coverage:** none
- **priority:** low
- **source:** brainstorm

---

**(R&D)****Q-026:**

- **question\_zh:** 6μm
- **question\_en:** What technical standards must 6μm composite copper foil meet? What are the tensile strength and elongation requirements?
- **department:**
- **scenario:**
- **data\_sources:** ( ), ( )
- **complexity:** simple
- **answer\_type:** lookup
- **kb\_coverage:** full
- **priority:** high
- **source:** brainstorm

**Q-027:**

- **question\_zh:**
- **question\_en:** How do Chongqing Jinmei and Shuangxing New Materials differ from us in composite copper foil technology? What are their product specs?
- **department:**
- **scenario:**

- **data\_sources:** ( ), ( ), ( / )
- **complexity:** complex
- **answer\_type:** analysis
- **kb\_coverage:** partial
- **priority:** high
- **source:** brainstorm

#### Q-028:

- **question\_zh:**
- **question\_en:** What special requirements does solid-state batteries place on current collectors? Can our existing composite technology adapt? What improvements are needed?
- **department:**
- **scenario:**
- **data\_sources:** ( ), ( ), ( )
- **complexity:** complex
- **answer\_type:** recommendation
- **kb\_coverage:** partial
- **priority:** high
- **source:** brainstorm

#### Q-029:

- **question\_zh:**
- **question\_en:** What were the results of last month's high-temperature aging tests? How did sample impedance change across temperature conditions?
- **department:**
- **scenario:**
- **data\_sources:** , ( )
- **complexity:** medium
- **answer\_type:** analysis
- **kb\_coverage:** partial
- **priority:** medium
- **source:** brainstorm

#### Q-030:

- **question\_zh:**
- **question\_en:** How many patents do we hold in composite current collectors? What key patents do competitors hold? Any infringement risks?
- **department:**
- **scenario:**
- **data\_sources:** , ( )
- **complexity:** complex
- **answer\_type:** analysis
- **kb\_coverage:** none
- **priority:** medium
- **source:** brainstorm

#### Q-031:

- **question\_zh:**

- **question\_en:** How far along is the new composite aluminum foil spec development? When can we send samples to customers? What technical challenges remain?
- **department:**
- **scenario:**
- **data\_sources:** , ,
- **complexity:** medium
- **answer\_type:** analysis
- **kb\_coverage:** none
- **priority:** high
- **source:** brainstorm

#### Q-032:

- **question\_zh:**
- **question\_en:** What are the mainstream technology routes in composite current collectors? Are there new breakthroughs that might affect our technology direction?
- **department:**
- **scenario:**
- **data\_sources:** ( ), , ( / )
- **complexity:** medium
- **answer\_type:** analysis
- **kb\_coverage:** partial
- **priority:** medium
- **source:** brainstorm

---

## / (Supply Chain)

#### Q-033:

- **question\_zh:**
- **question\_en:** Which raw materials are below safety stock levels? How many days of production can current stock support?
- **department:**
- **scenario:**
- **data\_sources:** ERP( ), ERP( ), ERP( )
- **complexity:** simple
- **answer\_type:** lookup
- **kb\_coverage:** none
- **priority:** high
- **source:** brainstorm

#### Q-034:

- **question\_zh:**
- **question\_en:** What's the shipping cost from Gaoyou plant to each major customer? Are there better logistics options to reduce cost?
- **department:**
- **scenario:**
- **data\_sources:** ERP( ), ( )
- **complexity:** medium
- **answer\_type:** recommendation
- **kb\_coverage:** none

- **priority:** medium
- **source:** brainstorm

#### Q-035:

- **question\_zh:**
- **question\_en:** Given current inventory, WIP, and production schedule, are there delivery risks for next month's orders? Which might be delayed?
- **department:**
- **scenario:**
- **data\_sources:** ERP(     ), ERP(     ), ERP(     ), ERP(     )
- **complexity:** complex
- **answer\_type:** analysis
- **kb\_coverage:** none
- **priority:** high
- **source:** brainstorm

#### Q-036:

- **question\_zh:**
- **question\_en:** If a key supplier suddenly stops delivery, how many days of buffer stock do we have? How long would it take an alternate supplier to start delivering?
- **department:**
- **scenario:**
- **data\_sources:** ERP(     ), CRM(     ), (     )
- **complexity:** complex
- **answer\_type:** recommendation
- **kb\_coverage:** partial
- **priority:** high
- **source:** brainstorm

#### Q-037:

- **question\_zh:**
- **question\_en:** What's the inventory turnover for each product? Which products have excessive stock? Any dead stock needing disposal?
- **department:**
- **scenario:**
- **data\_sources:** ERP(     ), ERP(     )
- **complexity:** medium
- **answer\_type:** analysis
- **kb\_coverage:** none
- **priority:** medium
- **source:** brainstorm

#### Q-038:

- **question\_zh:**
- **question\_en:** What stage is the imported target material from Korea at in customs? When will it arrive at the warehouse? How long did the last batch take?
- **department:**
- **scenario:**

- **data\_sources:** , ERP( ),
  - **complexity:** medium
  - **answer\_type:** lookup
  - **kb\_coverage:** none
  - **priority:** medium
  - **source:** brainstorm
- 

## (Finance)

### Q-039:

- **question\_zh:** 6μm
- **question\_en:** What's the cost breakdown for 6μm composite copper foil? What's the ratio of materials, labor, energy, depreciation? How has it changed vs last quarter?
- **department:**
- **scenario:**
- **data\_sources:** ERP( ), ERP( )
- **complexity:** medium
- **answer\_type:** analysis
- **kb\_coverage:** none
- **priority:** high
- **source:** brainstorm

### Q-040:

- **question\_zh:** 80%
- **question\_en:** At current cost structure, what's the breakeven volume for composite copper foil in sqm? If capacity utilization reaches 80%, what margin can we achieve?
- **department:**
- **scenario:**
- **data\_sources:** ERP( ), ERP( ),
- **complexity:** complex
- **answer\_type:** analysis
- **kb\_coverage:** partial
- **priority:** high
- **source:** brainstorm

### Q-041:

- **question\_zh:**
- **question\_en:** How is the CCC division's operating cash flow this month? What are the AR and AP days outstanding?
- **department:**
- **scenario:**
- **data\_sources:** ERP( ), ERP( )
- **complexity:** simple
- **answer\_type:** lookup
- **kb\_coverage:** none
- **priority:** high
- **source:** brainstorm

**Q-042:**

- **question\_zh:** 30.89
- **question\_en:** The CCC project has invested 3.089B yuan. At current order volume and capacity ramp rate, when do we expect ROI breakeven?
- **department:** /
- **scenario:**
- **data\_sources:** ERP( ), ERP( ), ( ),
- **complexity:** complex
- **answer\_type:** recommendation
- **kb\_coverage:** partial
- **priority:** high
- **source:** brainstorm

**Q-043:**

- **question\_zh:**
- **question\_en:** What's each department's expense reimbursement total this month? Any departments over budget? What are the largest claims?
- **department:**
- **scenario:**
- **data\_sources:** ERP( ), ERP( )
- **complexity:** simple
- **answer\_type:** lookup
- **kb\_coverage:** none
- **priority:** low
- **source:** brainstorm

**Q-044:**

- **question\_zh:**
- **question\_en:** As a national high-tech enterprise, what tax benefits are we using? How much is our R&D expense super-deduction? Are there other policies we can apply for?
- **department:**
- **scenario:**
- **data\_sources:** , ( ), ( )
- **complexity:** medium
- **answer\_type:** recommendation
- **kb\_coverage:** partial
- **priority:** medium
- **source:** brainstorm

---

**(Management)****Q-045:**

- **question\_zh:**
- **question\_en:** Give me a weekly business brief: revenue, orders, output, yield, inventory, receivables — key numbers vs last week.
- **department:**
- **scenario:**

- **data\_sources:** ERP( ), CRM,
- **complexity:** complex
- **answer\_type:** analysis
- **kb\_coverage:** none
- **priority:** high
- **source:** brainstorm

#### Q-046:

- **question\_zh:**
- **question\_en:** What's the current competitive landscape in composite current collectors? Where do we stand vs competitors in technology, capacity, and customers?
- **department:**
- **scenario:**
- **data\_sources:** ( ), ( ), ,
- **complexity:** complex
- **answer\_type:** analysis
- **kb\_coverage:** partial
- **priority:** high
- **source:** brainstorm

#### Q-047:

- **question\_zh:**
- **question\_en:** Based on next year's capacity expansion plan, how many additional staff does each department need? How's recruitment progressing? Are key positions filled?
- **department:**
- **scenario:**
- **data\_sources:** HR , ERP( ), ( )
- **complexity:** medium
- **answer\_type:** analysis
- **kb\_coverage:** partial
- **priority:** medium
- **source:** brainstorm

#### Q-048:

- **question\_zh:**
- **question\_en:** What synergies exist between metal packaging and composite current collector divisions? Any crossover in technology, customers, supply chain?
- **department:**
- **scenario:**
- **data\_sources:** ( ), ( ), CRM, ERP
- **complexity:** complex
- **answer\_type:** recommendation
- **kb\_coverage:** partial
- **priority:** medium
- **source:** brainstorm

#### Q-049:

- **question\_zh:**
- **question\_en:** What are the major operational risks facing the company? How significant are risks from material price volatility, customer concentration, and technology shifts?
- **department:**
- **scenario:**
- **data\_sources:** ( ), ( ), ERP( ),
- **complexity:** complex
- **answer\_type:** analysis
- **kb\_coverage:** partial
- **priority:** high
- **source:** brainstorm

#### Q-050:

- **question\_zh:** GB38031-2025
- **question\_en:** How does the new GB38031-2025 battery safety standard affect our products? What adjustments do we need to make?
- **department:** /
- **scenario:**
- **data\_sources:** (GB38031-2025), ( ),
- **complexity:** medium
- **answer\_type:** recommendation
- **kb\_coverage:** full
- **priority:** high
- **source:** brainstorm

#### Q-051:

- **question\_zh:** U&S ENERGY
- **question\_en:** Besides Korea's U&S ENERGY, which overseas battery companies might need composite current collectors? What certifications are needed for those markets?
- **department:** /
- **scenario:**
- **data\_sources:** ( ), , ( )
- **complexity:** complex
- **answer\_type:** recommendation
- **kb\_coverage:** partial
- **priority:** high
- **source:** brainstorm

#### Q-052:

- **question\_zh:** 100
- **question\_en:** Given the 100-line copper foil capacity plan, at what pace should we expand based on order growth trends? What's the expected payback period per new line?
- **department:** /
- **scenario:**
- **data\_sources:** ERP( ), ERP( ), ( ),
- **complexity:** complex

- **answer\_type:** recommendation
- **kb\_coverage:** partial
- **priority:** high
- **source:** brainstorm
